REVISIONS TO UNIVERSITY ACADEMIC POLICIES

Revisions were made to several university academic policies in the preceding months:

Revisions to remove references to the Indiana University Library Faculty Handbook and to remove references to the IU Libraries Faculty Review Board, which dissolved in 2012. The revisions are administrative and serve to align library faculty policy language more closely to that of the faculty. The changes were approved by the UFC in February, 2016.

[The revised portions of the affected policies are shown in the Appendix to this AAR. New language is underlined. Language eliminated is struck-out.]

DEGREE RESCINDED

IUPUI graduate Cavya Chandra, (Bachelor of Science with a major in Neuroscience) conferred May 10, 2015, shall have the degree rescinded on August 12, 2016 due to the confirmed falsification of admission records to the IUPUI School of Science.

APPENDIX

August 5, 2016
Administrative Action Report

I. Revisions to university academic policies:

Faculty and Librarian Tenure (ACA-37)

Procedures for Librarians
Subject to the provisions which follow, a person appointed as a professional librarian in the Indiana University Library system shall have Library tenure after the same probationary period that is applicable to the faculty.

Recommendations for advancement to tenured status for librarians are prepared by team leaders, supervisors or other appropriate administrative officers. Such recommendations are prepared early in the academic year which counts as the sixth year for purposes of reckoning years of service towards tenure. (The actual determination of the appropriate year includes credit for service at other institutions which may have been negotiated at the time of the first appointment.) For specific information on the process of preparing such recommendations, see The Indiana University Library Faculty Handbook and campus-specific documents.

Recommendations shall be submitted through the academic administration of each campus with the advice of librarian committees and appropriate professional peers. Administrative structure varies somewhat from campus to campus and among library units on each campus. For specific information on the routing of such recommendations, see The Indiana University Library Faculty Handbook and campus-specific documents. Campus vice presidents, chancellors, and library deans, with the advice of librarian committees, are responsible for submitting tenure recommendations to the President. It shall be the responsibility of the President to submit to the Board of Trustees the names of those recommended for advancement to tenured status.

Faculty and Librarian Promotion (ACA-38)

Librarian Promotions
Criteria for Promotion
Performance of Librarianship duties, professional development/research/creative activities, and service to the profession, university, and community are long standing University promotion criteria for librarians. Promotion considerations must take into account, however, differences in mission among campuses, and among library units within some campuses, as well as the individual librarian’s contribution to the library/campus mission. The relative weight attached to the criteria above should and must vary accordingly. In all cases the candidate’s total record should be assessed by comprehensive and rigorous peer review. Promotion to any rank is a recognition of past achievement and a sign of confidence that the individual is capable of greater responsibilities and accomplishments. For specific procedures and criteria for promotion, see The Indiana University Library Faculty Handbook and campus-specific documents.

Promotion in Rank
When considered for promotion, the librarian should be assessed in regard to all three criteria from the preceding section. Favorable action should result when the individual has demonstrated a level of excellent performance of Librarianship duties and a level of competence or distinction appropriate to the proposed rank in one of the other areas of endeavor. In exceptional cases, a candidate may be promoted based on excellent performance and evidence of balanced strengths across the other two areas of professional development/research/creative activities and service that when considered together show a level of distinction appropriate to the rank under review. Failure to promote may arise from an assessment of unsatisfactory contributions in one of the three criteria areas. For details on the criteria and procedures, see The Indiana University Library Faculty Handbook and campus-specific documents.

**Reappointment and Non-Reappointment during Probationary Period (ACA-22)**

4. Review of Decision of Non-Reappointment

a. Upon receiving notice of a negative recommendation or decision on reappointment or tenure, the first recourse of the faculty member or librarian shall be to request an oral explanation from his or her principal administrative officer.

b. Upon written request, submitted within thirty days of notification of non-reappointment to the appropriate administrative officer, that officer shall provide the faculty member or librarian within a reasonable period of time with a written statement of the reasons for non-reappointment.

c. The statement of reasons should reflect careful consideration of the qualifications of the faculty member or librarian in terms of the professional standards and needs of his or her department, school, program, division, or library unit or of the University.

d. The faculty member or librarian who believes that a recommendation or a decision that he or she not be reappointed has resulted from inadequate consideration of professional competence or erroneous information may offer corrections and request reconsideration at the level at which the decision not to recommend reappointment was first made.

e. If the faculty member or librarian is dissatisfied with the result of a request for reconsideration he or she may petition the Faculty Board of Review or the IU Libraries Faculty Review Board for a review of the procedures employed in the decision not to recommend reappointment. The petition should be initiated within a reasonable period following the receipt by the faculty member or librarian of the written statement of the reasons for non-reappointment.

f. Before undertaking a review, the Faculty Board of Review or the IU Libraries Faculty Review Board may seek to bring about a settlement of the issue satisfactory to both parties. In the course of the review, the Boards shall request reconsideration by the department, school, program, division, or library unit in which the faculty member or librarian holds an appointment or the offices of the Vice Provost for Faculty and Academic Affairs/Vice Chancellor for Academic Affairs, campus Chancellor or Provost, and other appropriate administrative officers who were involved in the decision, when it finds that inadequate consideration was given the faculty member’s or librarian’s qualifications, or that specified procedures were not observed, or that erroneous information substantially affected the decision. The Faculty Board of Review or the All-University Librarians Review Board shall provide copies of its report and recommendations to the faculty member or librarian, the principal administrative officer of the department, school, program, division, or library unit.
in which the faculty member or librarian holds an appointment, the offices of the Vice Provost for Faculty and Academic Affairs/Vice Chancellor for Academic Affairs, campus chancellor or provost, and other appropriate administrative officers.

g. Whenever during his or her appointment a faculty member or librarian discovers that these provisions have not been followed, he or she may request, as soon as reasonably possible, that his or her department, school, program, division, or library unit of the University accord him or her the full benefit of the procedures. If his or her request is not granted, the faculty member or librarian may petition the Faculty Board of Review or the IU Libraries Faculty Review Board for a review of the procedures followed in his or her case.

h. Upon finding by the Faculty Board of Review or the IU Libraries Faculty Review Board, accepted by the principal administrator of the campus in question, that the faculty member or librarian did not enjoy full benefit of the procedures through fault of an administrative officer or body of the University, the University shall, if necessary, to avoid prejudicing the rights of the faculty member or librarian, extend the probationary appointment for one year beyond its normal termination point, or take other appropriate measures agreeable to the faculty member or librarian.

i. Recourse by a faculty member or librarian to the various rights of appeal, review, and reconsideration set forth above shall not be construed as precluding the University's right to give timely notice of non-reappointment as specified elsewhere in this handbook. In normal circumstances it is to be anticipated that reconsideration and review will occur before the effective date of termination.

j. In light of the legitimate educational interests of students, faculty, colleagues, and others, it is the mutual obligation of the University administration and of the affected faculty member or librarian to observe promptly and fully the above procedures.

1) Revision to align one section in ACA-37 Faculty and Librarian Tenure with the recently revised ACA-77 Advertising Policy for Academic Instructional Positions. The section references tenure for non-citizens and the original wording, which appeared in both policies, was a cause of confusion. When ACA-77 was revised in May, 2016, the section was reworded to be more clear. That section in ACA-37 is noted as Administrative Practice and the change was approved by the Executive VP for Academic Affairs and VP and General Counsel. The revision was made in July, 2016.

**Faculty and Librarian Tenure (ACA-37)**

**Tenure Status for Non-Citizens**

It is the policy of Indiana University that only individuals who are U.S. citizens or permanent residents be appointed to tenured positions. Appointments to positions with tenure that are offered to non-U.S. citizens or permanent residents will be temporarily converted to tenure-probationary appointments until permanent residence in the U.S. has been obtained. At that time, the appointment will be converted back to the tenured position as originally offered.

It is the policy of Indiana University that only individuals who are U.S. citizens or permanent residents may be granted tenure. Non-U.S. citizens who are not permanent residents, in tenure-track positions, may continue to progress in tenure probationary status, but may not be granted tenure until permanent residence in the U.S. has been obtained. When appointments to positions with tenure are offered to non-U.S. citizens who are not
permanent residents, they will be temporarily appointed to tenure-probationary positions until permanent residence in the U.S. has been obtained at which time the appointment will be converted to a tenured position as originally offered.
